

Record keeping template

Veterinary chemical use

Date of treatment	Product trade name	Species of animal	Location of animal	Animal identification number, name or description	Quantity of product used (dose) per animal	No. of animals treated	Approx. live weight	Batch No.	Expiry date	WHP/ESI (days)	Date safe for slaughter*	Name of applicator (person)

WHP - Withholding period

ESI - Export slaughter interval

Date safe for slaughter* - To calculate, add the WHP number of days to the last treatment date

Note - This form contains additional requirement for Livestock Production Assurance (LPA) livestock treatment records. LPA requires records to be kept for a minimum of 3 years, or for the duration of the livestock on the PIC, whichever is longer.

Veterinary chemical product details must be recorded within 48 hours of use and kept for two years

For details of your legal requirements when using veterinary chemicals visit the [AgVic chemical use page](#).
